A smart way to prevent home water damage

The L1 Water Leak and Freeze Detector and the L5 Shutoff Valve alert you to leaking or freezing pipes, with the L5 Shutoff Valve providing water shutoff capability.

PRODUCTS AND FEATURES

L1 WiFi Water Leak and Freeze Detector

Small leaks can have expensive consequences. You can be confident that you will be alerted if there is a leak within the device's range. Potentially reducing the extent of the water damage in the event of a leak.

- **Detection**
  Alerts you to water leaks, extreme temperature, and humidity changes out of the set range with push notifications to the Resideo App and email. Additionally, choose to assign others to receive email alerts.
- **Quick setup**
  Install the battery-operated device near a water heater, washing machine, sink, or sump pump; then, the Resideo App guides you in connecting to your home WiFi. No hub or base is required.
- **Versatile**
  Use the L1 WiFi Water Leak and Freeze Detector as a standalone product or as part of a comprehensive water management solution. Your leak detector can be paired with a Braukmann L5 WiFi Water Leak Shutoff Valve to add automatic shutoff functionality when a leak is detected.
- **Extended reach**
  Includes a 5-ft cable that senses water along its entire length. Cover your whole home and add additional devices or extend the sensor cables to expand coverage up to 500-ft.
- **Reusable**
  Easily reset your device after it detects a water leak. When your cable is completely dry, plug it back in, and it's ready to use again.
- **Smart Home App**
  The Resideo App allows you to easily connect to and control your compatible Resideo products. Manage your devices even if you are not home.

L5 WiFi Water Leak Shutoff Valve

- **Connected and in control**
  The Resideo App can be setup as a water leak detection control panel with notifications, customized alerts, and pre-set shutoff locations. The wireless functionality means you can control your home's water from anywhere.
- **Automatic and accurate**
  The L5 Valve shuts off your home water supply when it detects water via a connected 5-foot sensor cable. Plus, easily link with multiple Resideo Water Leak and Freeze Detectors for even more coverage throughout your home.
- **Smart and simple**
  Save water, save money. You usually won't notice a leak until the damage is already done. Experience peace of mind that you are helping protect yourself from potentially expensive damage to your home and belongings.
- **Home or away**
  The Water Shutoff v alve can send alerts to your phone when water is detected allowing you to manage your home's water even when you are away. You can also assign alerts to anyone, especially helpful if you own a second property or want to notify your plumbing professional automatically.

Water leak protection, where it matters most.

Working together, these products provide added peace of mind, alerting you to leaking or freezing pipes. Plus, the Water Shutoff Valve capability reduces potential household damage. It can all be managed on your smart phone via the Resideo App, making this a must-have solution for today's tech-savvy homeowners.
